

## Adviser looking to manage clients on platform

AIM portfolios were traditionally held directly with a specialist AIM investment manager. However, many wrap platforms can now accommodate not only AIM shares but AIM managers who can manage AIM client portfolios on behalf of your clients via a DFM mandate. This allows client assets to remain on your chosen platform, facilitating the seamless outsourcing to a specialist AIM manager and avoiding unnecessary and time consuming administration.

Our Fundamental AIM IHT ISA Accounts and General Investment Accounts are tailored discretionary arrangements which can be accessed on a large number of platforms.
