Fundamental Asset Management offers a portfolio service that addresses both the risks and rewards associated with investing in AIM. A dedicated value focused AIM portfolio, investing in AIM quoted companies which have demonstrable earnings, dividend yield and reduced stock volatility. This strategic and compelling tax planning method, which after the short 2 year qualification period gains total relief from Inheritance Tax, has also benefited from continual growth since inception. This method avoids the costs associated with forming a trust or the risks associated with gifts and assets remain under the control of the holder.
